PROJECTS

myFlix — *https://clairedelorie.github.io/myFlix-Angular-client*

Developed a server and client-side movie web application using React and Angular that allows users to create profiles, view movies and movie details, and add movies to a list of favorites.

Pokedex — *https://clairedelorie.github.io/pokedex-app*

Created a web application using Javascript, HTML, and SCSS that allows users to search for and select a Pokemon to view specific details of the Pokemon.
